The Kings Point Amateur Radio Club meets the first Monday of the month from October through May at 3:00 p.m. in the Main Club House Craft Room

Radio Room Update

UHF/VHF Operating Position

Weather and Test Position

Its been a long long road to get our new radio room to begin to take shape. Since the beginning of June our contractor, South Shore Building and Remodeling started delivering the cabinets and desk tops to begin installation. On Monday, June 11 the final stage began with assembly of the floor and wall cabinets, removal of base board and laying out the location of each unit. Of course expectation of everything going without a problem is not in the cards. Locating wall studs became a bit trying but with perseverance the problems were solved.

To give you an idea what kind of quarters we will operate our radio equipment, the photos show the UHF/VHF operating position. The lower photo is the Weather Station and the Test Station/Work Bench. On the opposite wall you will find the HF operation position. You will note the ample leg room for the operator to work in comfort. In addition to the radio equipment, each position will have a computer with independent DSL Internet connection.

Now that the construction work is complete we need to start moving antenna's and equipment. We will need help. Please call and volunteer.

Saturday Morning Breakfast News

It is my understanding the Saturday Morning at Rachel's Restaurant originally was set for around 8:00 a.m. As this weekly social event progressed more and more people attended and seating became a premium. So, people began to arrive earlier and earlier. It has gotten to a point where some members would arrive before 7:00 a.m. Therefore, at the June 2nd breakfast it was agreed to set 7:30 a.m. as the official breakfast meeting time.

BREAKFAST AT RACHEL'S
7:30 a.m. EVERY SATURDAY MORNING**

Where is our President?

I had the opportunity to talk to Dick on two occasions within the last two week. He and Eileen are now in Port Said, Egypt. He said the group of boats on the tour circled up 50 boats filled with colorful flags and entered the Suez Canal and into the port. Very festive. They are a hit with the locals and have been welcomed by many. They seem proud to have American flagged visitors. The port flies an American flag along with many western country flags. Dick and Eileen will go on a two day tour to Cairo .

After the tour and festivities of Egypt and its surrounding area the tour comes to a close and begin individual destinations. Dick and Eileen have a few places they want to visit before their boat goes back into winter storage and they begin their journey home in August.
